

The Tony Fernandez Foundation is a non-profit organization in Canada, the United States and Dominican Republic, dedicated to working with underprivileged children to provide the most basic needs including academic, emotional, physical and spiritual development.

The Foundation was inspired by Tony's deep gratitude to the many who assisted him throughout his successful Major League career, especially here in Toronto. His personal experience with poverty has left him with a life commitment to helping underprivileged children everywhere and he now devotes much of his time and resources to this effort.

Visit the foundation's website at:
