

MASTER DECKERS™

ACQ COMPATIBLE DECK SCREWS

DT1700 LONGLIFE COATING

DT1700 is a newly developed ACQ COMPATIBLE COATING that exceeds all corrosion requirements for new ACQ non poisonous / non toxic pressure treated wood and is fully compatible with all existing pressure treated materials.

- DT1700 exceeds all corrosion requirements for ACQ treated wood.
- It is also fully compatible with existing CCA pressure treated wood.
- Master Deckers are available in DT1700 Dull Gray finish that blends with weathering wood.
- Master Deckers have QUADREX DRIVE HEADS that accept Phillips, Square, Slotted or Quadrex Drive insert bits.
- Master Deckers are manufactured with nibs under the head to assist countersinking into dense materials.
- Master Deckers are available in two point designs - our sharp, rapid pick-up point, for most applications or with a shank slot for easier installation in dense materials.
- All Deckers are made with wide spaced thread design for faster installation.
- JS500 Plating is now Hexavalent Chromium Free.
- DT1700 coating is available on Lag Screws, Cap Screws, Nuts, Tapping Screws, Wood Screws and One Steppers.

FINISHES AVAILABLE FOR MASTER DECKERS

ACQ Compatible

DT1700 LONGLIFE COATING

This finish is engineered to be specifically compatible with ACQ pressure treated lumber.

300 SERIES STAINLESS

This finish is fully compatible with ACQ pressure treated lumber and all existing CCA treated material.

JS500 PLATING SYSTEM

This finish is NOT for use with ACQ treated lumber - however, it is extremely effective and popular for virtually all other materials.
